BEFORE DIGITAL TRANSFORMATION

AFTER DIGITAL TRANSFORMATION

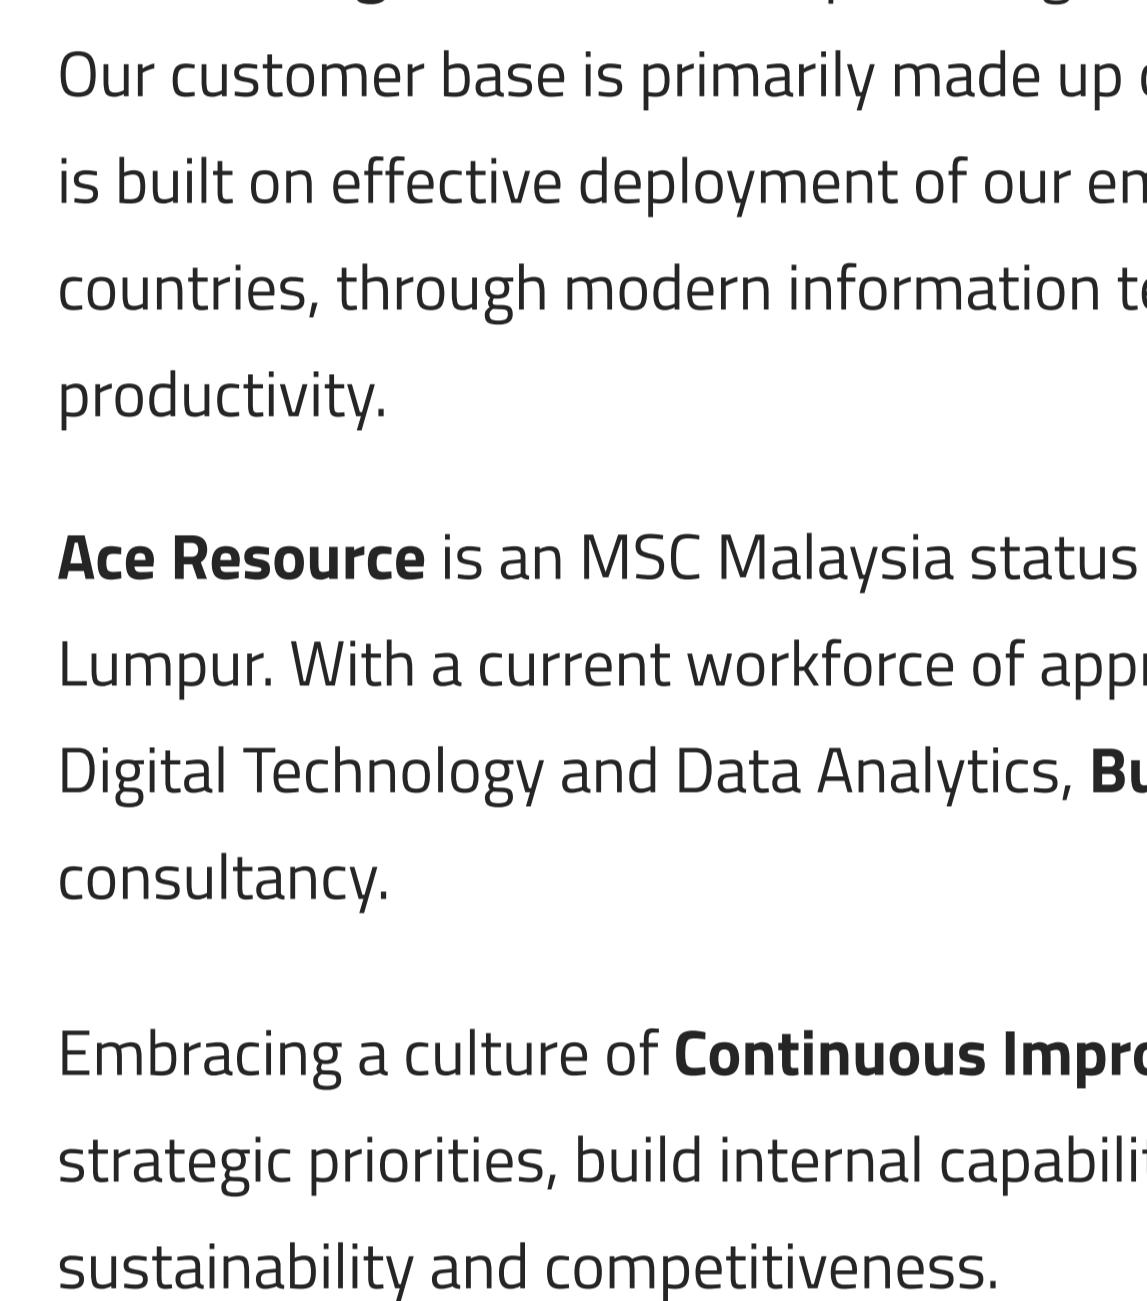

Leading world class services in Digital Transformation.

The changing nature of organisations and work today, the broader level of competition brought about by seismic shifts in technological advances, the ever-rising expectations of consumers and the plethora of business models can be confusing, even paralysing at times.

Drawing on a deep understanding of the resources sector, we offer end-to-end services in Digital Transformation to help our customers better manage their most critical threats and opportunities.

Our History

Ace Resource Advisory Services Sdn Bhd ("Ace Resource") was incorporated in February 2013. We are a **knowledge processing outsourcing ("KPO")** centre, providing consultancy and services in Digital Technology, Data Analytics, LEAN and Continuous Improvement. Our customer base is primarily made up of resource-based manufacturing companies with operations across the globe. The business model is built on effective deployment of our employee Subject Matter specialists to global present cover Asia Pacific, East Asia and other countries, through modern information technology infrastructure, to meet the strategic needs of customers to grow and to improve productivity.

Ace Resource is an MSC Malaysia status company operating in the MSC Malaysia Cybercentre at Wisma Averis, Bangsar South, Kuala Lumpur. With a current workforce of approximately 50 highly-skilled talents, Ace Resource comprises four areas of focus: **ACE Digital** on Digital Technology and Data Analytics, **Business Continuous Improvement Department (BCID)** on Continuous Improvement and LEAN consultancy.

Embracing a culture of **Continuous Improvement**, we champion transformations across our customer groups to identify and implement strategic priorities, build internal capabilities to become leaner, more agile, fast to market; all the while mitigating risks to ensure long-term sustainability and competitiveness.

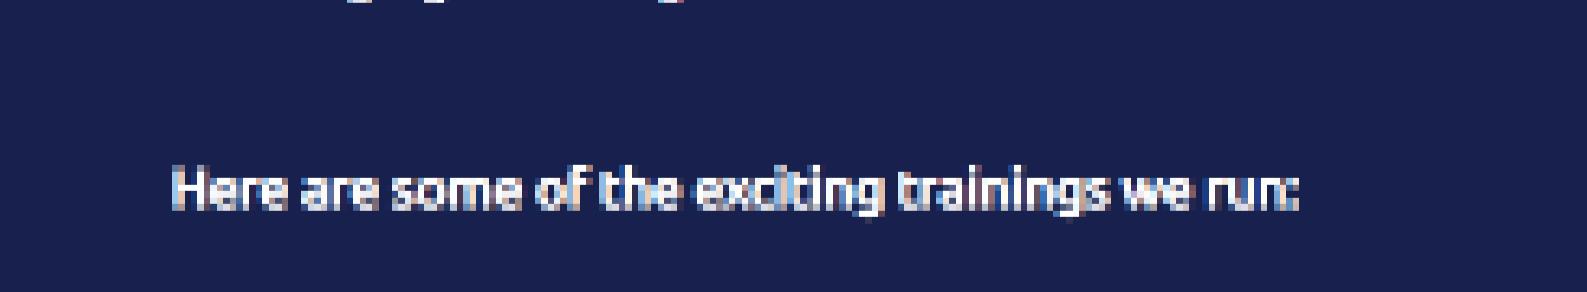

Our advisory-led approach, headed by technology experts with cross-functional experience in the digital industry, enables our customers to develop an ecosystem of support, soliciting active involvement from partners, customers and employees in managing change proactively.

Our Approach

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.

Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.

Complementary Team

Aligned by a common purpose, we work together to achieve organisational objectives, prioritising team success over individual success.

Ownership

Driven by a sense of personal ownership in all we do, we practise hands-on management and demonstrate stewardship, always seeking to bring the best value we can in all decisions made.

Integrity

Unstinting and determined, integrity permeates all we say and do in business.

Continuous Improvement

Guided by our customers' sustainability framework, we aim for better, faster and cost-effective to remain competitive, while we strive for zero accidents and zero non-compliance.

Our culture.

Here in ACE Digital, our Core Values build our organisation from the beginning, keeping us strong and resilient. We put our core values at the heart of everything we do and this means working together as complementary teams, taking ownership, developing people, acting with integrity, delivering best value to our customers, and striving for continuous improvement. In doing so, we can realise our vision to deliver value-added, world-class services accurately, effectively and timely, to support our customers in creating value for the community, country, climate, customer and company.

T.O.P.I.C.C.

Exceeding expectations and bringing delight – this is what we do to further engage our customers, to better understand their needs and to provide solutions that matter.

Guided by our customers' sustainability framework, we aim for better, faster and cost-effective to remain competitive, while we strive for zero accidents and zero non-compliance.

With a starting point as a UX consultant and now in project management, ACE Digital has given me the choice to explore my interests as well as my career path by providing ample development opportunities. I'm grateful that by involving myself in projects within ACE Digital, I get to broaden my knowledge about the plantation business and how my digital knowledge can help the business. I'm still here to continue learning everyday - a continuous process that will never get bored."

"One of the first things I wanted to know about Averis/ACE Digital before I joined was about the company core values. Having experienced working in multinational and start up companies, the work culture in my opinion, is predictable by those values and is important to me. Since joining last year, I have observed an experienced those core values being put in practice. I feel fortunate to be part of a company that places emphasis on people as an asset."

Mille Tham
Deputy Head of IT & Digital (Asian Agri)

Dr Siew Jit Ping
Head of Technology & Data, 4.0
